

Telegraph to the New-York Tribune.

Washington, Monday, Sept. 8, 1891.

WASHINGTON, Monday, Sept. 8, 1891.

The Republic of Venezuela, under the Presidency of Antonio Guzmán Blanco, presented to the President on Saturday by W. S. Derrick, Acting Secretary of State, and delivered his letters of credence as usual addresses were delivered, conducted by Mr. John A. Cassano, the official translator of the Department of State.

A new trial has been awarded to Dr. convicted of murdering his wife, on the ground of alleged perjury with the jury, and other reasons.

From the Rochester American.

New-York State Agricultural Society.
Fair and Cattle Show, September, 1891.

The Secretary's office will be open at the Grounds, from and after the first day of September, for the transaction of business.

Exhibitors are notified that all animals and articles for exhibition should be entered on the Secretary's book on or before Tuesday, the 16th of September. The membership (one dollar) must be paid to the Treasurer before the time of entry—Exhibitors will greatly facilitate and oblige the office by transmitting their fee and a copy of their entries several days before the Fair, by letter or otherwise.

Exhibitors are requested to record with their entry name of the owner of each animal—the name of breeder, their residence, with the age and weight of each animal, and also the sex of each animal.

Persons having charge of any animal or article for exhibition, will first call at the business office near north gate—pay the fee of membership (\$1.)—and receive a ticket. The Fair grounds will then pass to the animal or article. He will then pass the grounds by the southern "Forage Gate," present the animal or articles to the Superintendent in charge of the department in which his article is shown, where a place will be designated for its location.

No person will be permitted to occupy any position for exhibition, other than shall be designated by the Superintendent of the department in which the animal or articles are exhibited.

All animals except horses and articles for exhibition must be brought within the enclosure as early as possible on Tuesday the 16th of September, for arrangement. Horses will be received every Wednesday morning, and there will be no limit to the number of horses supplied at the expense of the Society to all animals entered for exhibition. Mr. Tom Miller, as Forage Master, will attend to the transportation of the horses.

WEDNESDAY, 17th of September.—The Judges assemble punctually at 11 o'clock A.M. in the Clerk's Tent, when the Committee will be organized and books of entries and instructions delivered to each Committee. The Judges will then enter their several duties, attended by the Superintendent of the departments.

Members and guests of the Society only are admitted to the Fair grounds during the examination in Judge's Tent.

Invited guests, delegates from other States, Societies, or other Associations, are requested to present themselves at the Secretary's office on or before Thursday.

THURSDAY, 18th Sept.—The grounds will be this day to the Public. Tickets for Admission, passes, will be obtained at the Ticket-office near entrance gate. Members will obtain their tickets at the Secretary's Office. The Fair will be open to the public. Members are admitted at all times during the Fair.

Angers of distinction invited by the Society, be conducted to the grounds for the inspection or consultation.

FRIDAY, 19th Sept.—The Fair grounds continue to be open to the Public this day. The Plowing match will be held this day, on the farm of Judge Buell. Plowing matches will take place on the Farm of the Premium animals will be paraded and judged around the grounds at 11 o'clock A.M., 1 o'clock P.M., the Annual Address before the Society will be delivered by the Hon. S. A. Douglass, at the close of which the Treasurer will deliver his report at this exhibition will be declared.

Members of the Executive Committee will be seated by the Scarlet Rosettes with a Pennant Medal.

Members of the City Committee will be designated by a Golden Star.

Members of the Society will wear orange colored ribbons.

Invited guests will be designated by Scarlet Rosettes.

The President's aids will wear Silver Stars.

The General Superintendents of the Fair will be shown by a White Rosette with a Red Center.

Persons who desire to visit the Fair Grounds in places, will be careful to procure their tickets of admission before they approach the entrance gates. Arrangements can be permitted to stand on any part of the Fair Grounds.

Persons who wish to see the grounds will be cautious to comply with these rules.

The gates of the Fair Grounds will be open to the public on Thursday and Friday at 7 o'clock A.M., and will be closed at 6 o'clock P.M. The grounds will be opened at 6 o'clock P.M. when the ringing bell is sounded at half past five P.M., as it is essential to the comfort and convenience of all attending the Fair, that persons in attendance may avoid the inconvenience of waiting for the opening of the doors.

J. P. FOGG,
Acting Secretary.

Crops in South-Western Ohio.

Responsibility of The N.Y. Tribune.

DAYTON, Ohio, Tuesday, Sept. 2, 1891.

The small grain crops are all harvested—Such wheat, rye, oats and flax—store-houses and granaries are full. How we put a famine forest with our overloading abundance.

HESPERIAN.

THE FIRE ANNIHILATOR.—The Baltimore Patriot of the 30th says:

An experiment with one of these fire annihilators was made yesterday afternoon in the yard of Messrs. Sanford & Co. of Adams & Co.'s Foreign Merchants Shot Tower, in this city, under the supervision of Mr. J. B. Crawford, Chief Engineer, William Peters and George A. Rawlings, in presence of a number of gentlemen who had invited to be present. The machine used was of the smallest size, and weighed about three pounds. The mode of operation was as follows: A flour barrel was closely covered with shavings and a quantity of light wood inflammable nature, and then set on fire, and the heat acted on the fuel, and the vapor of the inflammable material was put in requisition, and the vapor directed to the sides and bottom of the barrel. The effect was almost magical, in a brief time the fire had almost entirely disappeared, and nothing remained but a heavy volume of black smoke. The experiment was repeated several times, and with the same success, and all present concurred in the opinion that the invention fully entitled to all the praise which was conferred upon it, and that it would be well worth competing for all that has been claimed for it."

DESTRUCTION OF CROPS, &c.—The *Living Courier* of the 2d inst., publishes the following extract from a letter from Beaufort, N.C.:—"The crops on St. Helena Island have been destroyed by some persons, cut off one-half, they are really good, not on riding down to White Hall Bay-to-day, I see they are awfully whipped, in fact they are cut down flat in the alley and looking worse than dead. It is the heaviest crop I ever saw of the kind." It is considered the most destructive pest since 1824. In 1824 it was particularly severe. Streets are blocked up with trees, and you cannot get across them. One tree in upset, not one left standing, fence in the town has been blown down or dragged in some degree."

TRANSPORTATION OF STOCK, &c. TO THE STATE FAIR.—At a meeting of the Executive Committee held at Albany on the 9th, Mr. L. R. Morris announced that the following arrangements had been made for the transportation of stock to the State Fair, to be held at Rochester from the 16th, 17th, 18th and 19th days of September.

The Steamboat New-York will leave New-York for Albany, at 6 o'clock A.M. on Wednesday morning, and such stock as may be ready for the Fair, stopping at Yonkers, Poughkeepsie, Nebeck, Ticonderoga, Catskill, Hudson and Cosackville.

MOTHS IN FURNITURE.—Thoroughly saturate the stuffing of sofas, chairs, &c., by pouring oil in complete. This may be done without any danger of injury to carpets or clothing. See same article. I referred by sprinkling.

The method of getting rid of a sofa stuffed with moth-eaten hair, from thousands of worms and moths, was instantly destroyed without the least affecting the hair seating or varnish of the wood.

(North American).

FROM NEW-BRUNSWICK.—The *St. John's* paper announces that it has authority for stating that the recent Government, have been circulated, that the Provincial Government is pledged to support Mr. McLean's railway scheme, or any other scheme, is the order of the day.

The *Ver-branck* has authority whatever for that *The Ver-branck*, and that it is intended to convey an impression directly at variance with the state of the case.

FATAL ACCIDENT.—A colored man named Perlashe, a barber, fell from a window in the attic of the Delavan House, some six stories high, last night, and was instantly killed. He was 40 years of age, and was unmarried. He lived in the city, from New-York, yesterday merrily and was engaged to work in the barber shop on the ground floor of the Delavan House.

(Albany Daily Advertiser, 6th-Sept.).

THE CHOLERA.—This fearful disease, which has made desolate Meredith, although plans, had partially subsided at late accounts. From New-York to seventy have died. Among them in attendance upon them, we regret to record the names of Dr. Martin and Mr. Mulkey.

ALBANY ADVERTISER, 6th-Sept.
